

FSP COOL LOCKERS® EUROPE

Heavy duty modular locker systems

Europe Locker Catalogue 1st Edition

Proudly supplying lockers around the world for over 20 years

FSP COOL LOCKERS®

FSP COOL LOCKERS® have unique advantages over lockers made from traditional materials such as timber and metal. They are designed to last and to keep looking good in all environments. FSP COOL LOCKERS® are easy to clean - simply hose them out.

“The lockers still look new after two years of daily use by high school students. They are in excellent condition. Our students love using them too. They are so quiet to operate and easy to clean”

Simon Bridgeman, Deputy Principal

FSP COOL LOCKERS® Lockers are different...

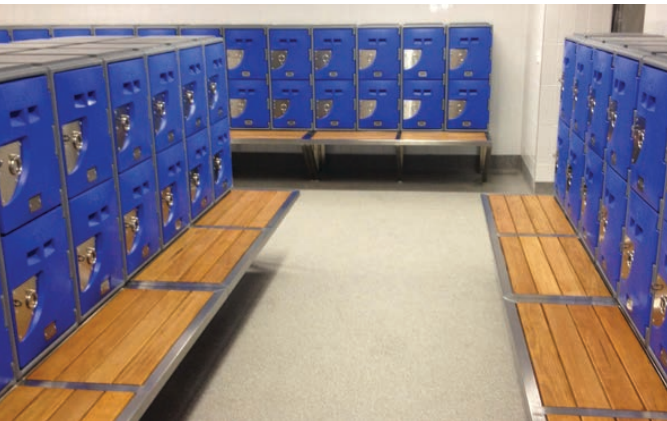

FSP COOL LOCKERS® Plastic Lockers have unique advantages over lockers made from traditional materials such as timber and metal. Here are just a few of them:

- ▶ UV stable with a HUGE range of anti-fade colours to choose from
- ▶ Lightweight & Stackable so they are easy to move and install
- ▶ The lockers are made of Heavy Duty Polyethylene with high-grade stainless steel door plate and hinge - so they are perfect for wet areas, coastal locations and outdoors
- ▶ Quieter than metal or timber lockers, no banging doors.
- ▶ Graffiti is easier to remove - No painting required
- ▶ Easy to clean and lowest maintenance. Just hose them out!
- ▶ Proven strength and durability - backed by our 15 year warranty.

US Patent No. 9113704 European Patent No. 12820162.1

US Patent No. 9113704 European Patent No. 12820162.1

Build your lockers....your way.

The FSP COOL LOCKERS® system is based on a simple modular system that allows you incredible flexibility. Choose different body footprints. Choose different sized doors and door colours in the same locker bank or within a single locker body.

You can create your own unique locker installation in three simple steps:

1 Choose Locker Body
Select from 5 different locker "footprint" sizes - A series, B series (deepest unit), C series (widest unit), D series (narrowest unit), and the E series. All are available in 1-9 hinges.

Suits the small door. Avail. 1-9 hinge	Same width as A but deeper body. Avail. 1-9 hinge	Wider body for wider door. Avail. 1-9 hinge	Narrowest body. Avail. 1-9 hinge	Same width as D but shallower body. Avail. 1-9 hinge
--	---	---	----------------------------------	--

US Patent No. 9113704 European Patent No. 12820162.1

2 Choose Locker Height
Choose from 1 - 9 hinge heights. You can select how many separate lockers you want to have in a single body. Every locker body size comes in 1 to 9 hinge options.

3 Choose Locker Door(s)
Select your locker door sizes and colours. Choose any combination of different sized doors to fill the selected locker in any of your chosen colours. The creative possibilities are endless.

US Patent No. 9113704 European Patent No. 12820162.1

The A series is a 380mm wide x 450mm deep locker body available in 1 - 9 hinges (A1 - A9). From 1 - 9 hinge doors can be installed, with combinations of different sized doors on the same locker body being possible.

FSP COOL LOCKERS® have all the accessories you need. We can supply extra shelves, stainless steel number plates, sloping tops, kick bases, and combination padlocks. Coin operated units are also available.

Lockers minimise damage to school from vandals

Schools installing FSP COOL LOCKERS® Plastic Lockers have many reasons to be confident that they have one of the most vandal resistant lockers available today.

However, one school had reason to be especially happy with their choice. When a vandal deliberately started a fire inside one of their lockers, it could have led to major damage to their school building. The school's superintendent was very impressed with the minimal melting and damage.

FSP received a letter of recommendation from the principal of the school to vouch for the impressive fire retardant qualities of FSP Lockers. With vandalism a problem in many schools, FSP COOL LOCKERS® Plastic Lockers have proven to be a safer choice than older-style lockers.

Product codes for ordering accessories:

Pad-Lockable L-Shaped handle: HCLHPLC

Combination lock: OLCL

Kickbase: OLBASEa, OLBASEb, OLBASEc, OLBASEd, OLBASEe*
